BURN PERMITS

PURPOSE: To provide guidelines for issuing burn permits within the City of Oak Grove.

Ordinance 1982-4 covers burn permits. Anytime a person wishes to do open burning, they must obtain a burn permit, if the location is inside of the city limits of Oak Grove.

Only Department Officers and other trained Fire Fighters, with permission from an Officer, shall issue burn permits.

Prior to burning an on site inspection is to be made to check the area for fire safety; i.e. to close to a building. The department issues a permit to burn items. It is up to you the person(s) burning to follow all Air Quality Regulations.

Information on the burn will be logged down with the following info:

Location of the Burn

Name of persons responsible for burning.

Phone # of person.

Type of material to be burned.

Length of burn (not more than 7 days unless approved by the Chief or D/C).

A copy of the City Ordinance 1982-4 and Burn Permit will be issued to the person doing the burning.
