NEW BUSINESS

- Randy Graham-Emergency Management Director: The I-24 construction project remains ongoing and is slated for completion by the end of the year. A major chemical incident resulted in the eastbound lanes being shut down for approximately 22 hours. An environmental response crew was dispatched to vacuum and remove the hazardous material to minimize public health risks. The chemical detour on the Tennessee side required additional time to establish. As a result of the detour, roadways in Oak Grove experienced significant congestion due to diverted I-24 traffic. The Kentucky State Police (KSP) coordinated with local law enforcement to assist with traffic control, improve motorist awareness, and reduce speeds. The Sheriff's Office promptly scheduled law enforcement presence during peak traffic periods. These combined efforts, along with the Tennessee detour, led to a substantial reduction in traffic congestion. GPS routing has since been updated to direct traffic to appropriate detour routes, avoiding Oak Grove roads that are not equipped to handle high traffic volumes. Graham expressed appreciation to the Mayor for maintaining consistent communication throughout the incident, noting the significant impact on the Oak Grove community.
